## Expertise

- Python
- Database
- PHP
- Amazon Web Services
- Github

## Language

English

Kannada

Hindi

## Experience

### Codezyng Pvt. Limited | Udupi

#### ○ Web Portal using Cloud API

Developed a data analysis tool for a solar operation company which would perform upload of data from solar facilities to the cloud storage.

On the server side, this tool was implemented using Amazon web services such as S3 bucket, Athena, AWS glue, IAM policies, AWS lambda, EC2 and AWS VPC. Also, used pandas with numpy for the data analysis and Postgress DataBase for data storage.

Dashboard for this project was built using Boto3 and flask framework.

#### ○ Education Website

Developed the portal for admin where the admin can register their students and subscribe particular courses and a dashboard to view their students details. This was implemented with PHP, js and moodal framework along with MYSQL DataBase.

## Education

2019

**Bachelor of Engineering**

**Vishveshvaraiya Technological University**

2015

**Pre University**

**Karnataka State Pre University Education Board**
